

# Hmmm... Beeeer

**Our Take on Beer** - In our opinion good beer has character in the way that it looks, smells, tastes and how or where it is made. It can be more complex with flavors than wine and often pairs better with food. We have chosen to sell the beer we enjoy ourselves and not try to be everything to everyone. Our goal is not to raise our nose in the air at those who enjoy popular domestic brew or light beers. We just want to be a comfortable place for people to explore beer and have fun with it while eating s tasty vittles. Cheers!
